// PROFESSIONAL SUMMARY

I'm a DevOps Engineer passionate about automating everything and building reliable, scalable infrastructure. With expertise in cloud platforms, container orchestration, and CI/CD pipelines, I help teams ship faster and more reliably. My focus areas include infrastructure as code, Kubernetes orchestration, and building robust monitoring solutions. I believe in the philosophy of "everything as code" and continuously improving deployment processes.

// EDUCATION

Universitas Amikom Yogyakarta 2020 — 2024

S1 in Informatika

GPA: 3.84 · **Activities:** Saya aktif berkontribusi di Amikom Computer Club (AMCC) dengan mengawali peran sebagai member dan dipercaya menjadi pengurus selama dua periode berturut-turut, serta memiliki prestasi di bidang jaringan dengan berhasil meraih juara 1 tingkat Nasional dari dua perlombaan yang pernah saya ikuti.
